

CS3.0

CS 3.0 Treadmill

UNSURPASSED QUALITY

The TRUE® CS3.0 was designed for facilities that demand the very best. Precision hand-built craftsmanship, innovative user-centric features and quality components vividly demonstrate our 27-year commitment to making the finest treadmills in the world. Our classic aluminum powder coat finish and matched aluminum straddle covers are a stylish touch to this rugged performer.

SPACE EFFICIENT DESIGN + LOW PROFILE

The CS3.0 was designed specifically for those facilities where both space and quality are at a premium. The CS3.0's brawny 11-gauge robotically welded frame and hydroformed pedestal provide an extremely stable workout experience even under the most rigorous pounding. The CS3.0 also features a low profile frame with an accessible 7" step-up height.

POWERFUL DRIVE SYSTEM

The TRUE CS3.0 comes equipped with a powerful Endura-Drive™ motor that drives a 22" wide running surface. The internal self cooling system ensures years of powerful and dependable operation.

TRUE HRC (HEART RATE CONTROL)™

The CS3.0 is equipped with a digital contact heart rate monitoring system as well as a Polar® wireless telemetry system to assist users in maintaining their optimum heart rate and maximizing workout results.

TRUE IMPACT ABSORPTION

TRUE's patented Soft System® offers the most orthopedically correct running surface available. Neoprene shock absorbers in the front third of the deck cushion each foot strike, while the back of the deck provides a firmer surface allowing for a stronger push off with each step.

USER FRIENDLY EXPERIENCE

The CS3.0 uses an intuitive, simply-designed cool blue LED screen to display the information most important to your users. Also standard on the CS3.0 are integrated personal fans which will give your users a more comfortable, enjoyable workout experience. Quick start and manual only options make this machine perfect for users seeking a simple, straight-forward workout at the push of a single button.

BUILT FOR THE LONG RUN

To ensure that your TRUE CS3.0 treadmill investment will pay dividends for years to come, it has been tested for thousands of hours on TRUE's "treadbuster" and is backed accordingly. The solid steel commercial frame is guaranteed for life. The Endura-Drive motor is covered for five years, all other parts for three years. All labor costs carry a full one year warranty from the date of purchase.

CS3.0

Specifications

Drive System

Drive Motor	TRUE 4hp AC Endura-Drive
Incline Motor	Compression Elevation Motor with 1000 lbs of Thrust
Speed Sensor	Optical
Power Source	120 Volt/20 Amp Dedicated (NEMA 5-20 Receptacle) Cord Length 12' (3.7 m) - 220v option available

Exercise Surface

Deck	Double Sided Thermally Fused Laminated 1" Medium Density Fiberboard
Belt	Siegling Multi-Ply Belt with PVC Coating
Rollers	3" Diameter Crowned Rollers
Impact System	TRUE Soft System (neoprene shock absorbers)
Lubrication	TRUE proprietary lubricant "Silax"

Frame

Frame	11-Gauge Heavy Duty Welded Steel
Pedestals	Hydroformed Steel
Finish	Powder Coat
