

CS6.0

CS 6.0 Treadmill

THE BEAUTY IS A BEAST

The TRUE® CS6.0 is built on a commercial 11-gauge, robotically welded steel frame that provides uncompromising stability even under the most rigorous pounding. Despite its brawny construction, the smooth, sweeping hydroformed steel pedestals, brushed aluminum powder coat finish and matched aluminum straddle covers provide a sleek, contoured presentation that is a dramatic accent to any fitness environment.

POWERFUL DRIVE SYSTEM

The TRUE CS6.0 comes equipped with a powerful Max-Drive™ AC motor that drives the largest running surface in the industry. The internal self-cooling system ensures years of powerful and dependable operation. The magnetic hall-effect speed sensor provides precise real-time workout data feedback.

TRUE IMPACT ABSORPTION

TRUE's patented Soft System® offers the most orthopedically correct running surface available. Neoprene shock absorbers in the front third of the deck cushion each foot strike, while the back of the deck provides a firmer surface allowing for a stronger push off with each step. Combined with our proprietary Silax™ lubrication system, a two-ply belt with PVC coating and large 3.5" diameter steel rollers the TRUE CS6.0 delivers an extremely comfortable and quiet ride from start to finish.

USER FRIENDLY INTERACTION

The CS6.0 console is designed to accommodate the more experienced user who utilizes programming as a means of achieving his or her fitness goals. It comes fully equipped with 19 workout programs, three of which can be custom built by the user and another five industry accepted fitness tests. The 11" custom LCD screen is intuitive and provides pertinent information to users in a consolidated, easy-to-read presentation. Mid-bar membrane switches put the control at users' fingertips. Also standard on the CS6.0 are integrated personal fans which will give your users a more comfortable, enjoyable workout experience.

HRC (HEART RATE CONTROL) ®

The CS6.0 is equipped with a digital contact heart rate monitoring system as well as a Polar® wireless telemetry system to assist users in maintaining their optimum heart rate and maximizing workout results. One touch HRC Cruise Control™ is also included, which allows the user to "lock in" on a specific target heart rate. Once the target is set, TRUE HRC Cruise Control will adjust speed or incline automatically throughout the duration of the workout to maintain the targeted heart rate (operates just like the Cruise Control in your car).

ENTERTAINMENT

The CS6.0 provides CSAFE power as well as seamless integration with all TRUE Entertainment™ options.

BUILT FOR THE LONG RUN

To ensure that your TRUE CS6.0 treadmill investment will pay dividends for years to come, it has been tested for thousands of hours on TRUE's "treadbuster" and is backed accordingly. The solid steel frame is guaranteed for life. The Max-Drive motor is covered for five years, all other parts for three years. All labor costs carry a full three year warranty from the date of purchase.

CS6.0

Specifications

Drive System

Drive Motor	TRUE 5hp AC Max Drive
Incline Motor	Compression Elevation Motor with 1000 lbs of Thrust
Speed Sensor	Magnetic Hall-Effect Sensor
Power Source	120 Volt/20 Amp Dedicated (NEMA 5-20 Receptacle) Cord Length 12' (3.7 m) - 220v option available

Exercise Surface

Deck	Double Sided Thermally Fused Laminated 1" Medium Density Fiberboard
Belt	Siegling Multi-Ply Belt with PVC Coating
Rollers	3.5" Diameter Rollers with Sealed Bearings
Impact System	TRUE Soft System (neoprene shock absorbers)
Lubrication	TRUE proprietary lubricant "Silax"

Frame

Frame	11-Gauge Heavy Duty Welded Steel
Pedestals	Hydroformed Steel
Finish	Powder Coat

Aluminum Straddle Covers	YES
Handrails/Handlebars	Molded Urethane, Moisture Resistant Flared Handrails
Medical Handrails	YES

Console

Display Type	11" Single Window Enhanced Custom LCD
Key Type	Membrane
Command Keys	Express, 1 Touch Quick Speed, HRC Cruise Control
Quick Speed Keys	YES
Data Readouts	Speed, Incline, Elapsed Time, Time Remaining, Distance, Pace, Heart Rate, Target Heart Rate, % of Maximum Heart Rate, METs, Calories, Level
Diagnostics	Software Version, Hours, Miles, Starts, Display, Heart Rate, Backlight, Contrast, Lower Control Board, RS232, Auxiliary Boards, Remote Keys, Current, Safety Switch, Program Usage, Watch Dog

Warranty

Warranty	Frame Lifetime, Motor 5 Years, Parts 3 Years, Labor 3 Years
----------	---

Heart Rate

Contact Heart Rate Monitoring	YES
Wireless Heart Rate Monitoring	Wireless - Polar® Equipped
HRC(Heart Rate Control)® Workouts	1 Target HRC
HRC Cruise Control™	YES

Programming

Workouts	10 - Manual, Quick Start, Calorie Burner, Hill Intervals, Speed Intervals, Speed Ramp-up, Glute Buster, Leg Shaper, Cardio Challenge, Sports Training
Custom Workouts	3 User Defined Workouts
Fitness Tests	Gerkin Protocol and 4-Military

Other Features

Accessories	Reading Rack, 2 Water Bottle Holders, 2 Accessory Trays
Safety	Safety Clip, Extended Handrails, Large Straddle Covers
Entertainment Capabilities	Seamless Integration with TRUE Entertainment Options
Communications	Full CSAFE Compatibility
Balance Bar Control Pad	YES
Personal Cooling System (Fans)	YES

Physical Specifications

Footprint	84.5"L x 37"W (215 cm x 94 cm)
Running Surface	23"W x 63"L (58cm x 160cm)
Machine Weight / Shipping Weight	518 lbs (235 kg) / 686 lbs (311 kg)
Maximum User Weight	500 lbs (227 kg)
Incline Range	0 to 18%
Speed Range	0-12 mph (0-19 kph)
Step-Up Height	11.5" (29 cm)
Portability	Front Transport Wheels
Regulatory Approvals	ETL, FCC, CSA (CE for 230V)
